Clever Solutions for a Better Climate

The continuously increasing heat loads in high-technology rooms can hardly be dissipated without draughts. For more than 20 years, Erich Keller have been developing and producing effective and proven solutions for a pleasant room climate. Today, thousands of Cool-Top air conditioning units are in use in dealing rooms – to the full satisfaction of the users. And the best of all is that with Cool-Top you save up to 60% on energy.

Cool-Top – Cooling without Draughts

- The heat occurring at the workplace is eliminated at source
- Cools the technical area and the monitors with a self-contained air circuit
- The result is a healthy and pleasant room climate
- Absolutely safe and reliable system
- U-Com can be equipped with Cool-Top right from the start or be retrofitted as required

Cool-Rack: Integrated Cooling with High Performance

- Cooling of rack inserts in a closed circuit
- High cooling performance with no disturbing noises
- Arrangement in the room or in separate uncooled rooms
- Optimum cable management; short cable runs in the rack and to the table rows
